

## BSB41415 Certificate IV in Work Health and Safety

The Certificate IV in WHS aims to give participants the knowledge and skills to assist with managing WHS issues within the workplace including, identifying potential hazards, assessing and controlling risk and ensuring compliance.

RTO: 88194

### Course Outline

This Workplace Health and Safety course has been designed for professionals seeking to work in a WH&S role, such as that of a WHS coordinator or safety advisor, or to upskill within the workplace.

### Learning Outcomes

The Certificate IV in WHS enables participants to gain the knowledge and skills to:

- Implement and support the workplace WHS management system.
- Prepare and advise workplace personnel for dealing with WHS issues.
- Understand WHS legislative requirements and assist with monitoring workplace compliance.
- Implement WHS initiatives and processes that support organisational WHS goals.
- Apply knowledge of risk assessment to contribute to the selection of risk-assessment techniques, tools and processes for common hazards.
- Contribute to setting up and running of WHS consultation and participant processes.
- Implement the organisation's continuous improvement systems and processes.

### Qualification Achieved

On successful completion of required units, participants will receive a Qualification Certificate from Compass Assurance Training (RTO: 88194) for [BSB41415 Certificate IV in Work Health and Safety](#). Participants will also have the option to enrol to complete the Diploma of Work Health and Safety.
